ABOUT ME

I am enthusiastic self motivated reliable responsible and hard working person .I am adaptable to all challenging situation . I am able to work well both in team environment as well as using own initiative

OBJECTIVE

To get an opportunity that allows to me to showcase my skill and contribute to the company's growth.

PROJECTS

1.FOOD DELIVERY WEBSITE

Our food delivery website utilizes technologies like CSS, HTML, and PHP and database phpmyadmin. It incorporates numerous functionalities such as ordering, feedback submission and more. These technologies enable seamless interaction, efficient order processing, and enhanced user experience.

2.AGRICULTURE MANAGEMENT SYSTEM

In our Agriculture Management System website, we employ technologies such as HTML, CSS, JavaScript, Nodejs, and MongoDB. It features various functionalities including crop expertise, fertilizer purchasing, crop information, a voice-enabled chatbot, photo gallery, assistance, and more. These technologies facilitate seamless interaction and efficient management, enhancing user experience and agricultural productivity.
